Pretoria is South Africa's capital city and can proudly claim to be not only South Africa's diplomatic hub but the African continent's leading diplomatic district. It is among the cities with the highest number of embassies and diplomatic missions in the world. This contributes to the cosmopolitan feel of Tshwane (Greater Pretoria). The city's good schools, three world-class universities, research institutions, automotive assembly plants, Wi-Fi hotspots and first-rate malls, make it an assertive and progressive metropolitan.
